Upstate Medical University

March 30, 2001

Ref: CHUA #713

The project described below was reviewed and approved by this institution's Committee for the Humane Use of Animals (CHUA) for the approval period listed. During the approval period, you are required to submit annual reviews to the CHUA. If your project will continue beyond the approval period of this protocol, a triennial full protocol review will be necessary.

Title of project: Gastric Banding in the Rat - Development of an Animal Model of the Lap-Band Procedures in Humans

Name of Principal Investigator: Michael Meguid, MD, PhD

Name of Institution: SUNY Upstate Medical University

Approval Period: March 30, 2001 to February 28, 2004

Conditions of Approval: None

The SUNY Upstate Medical University has an Animal Welfare Assurance on file with the Office of Laboratory Animal Welfare. The Assurance Number is A3514-01.

Remarks:

Any modifications of the project approved by this Committee that involve changes in the species or numbers of animals used or in the experimental protocol must be sent to the Committee for evaluation.

The approval is subject to recall if the conditions and requirements of the CHUA are not met.

David R. Mitchell, Ph.D.
